

Offering a Continuum of Capital & Investment Solutions

Momentum Capital is helping build inclusive and equitable communities by providing people access to the capital and opportunities they deserve. Our continuum of financial, knowledge, and social capital supports entrepreneurs and community-based organizations at every growth stage. By transforming outdated financial systems, we can advance locally-led solutions that create economic mobility and generational wealth.

Community Development Real Estate Lending

Flexible and affordable loans of \$1 million+ to community pillars including health centers and education facilities, food retailers, affordable housing, and cooperatives. We pair these options with flexible options for emerging developers of color.

Impact Investing

Non-dilutive preferred equity, mezzanine debt, and revenue/profit sharing investments from \$300k and \$3 million+ into growth-stage enterprises and small businesses that increase access to health care, reduce food insecurity, and create jobs and generational wealth.

Small Business Lending

Long-term, fixed rate and low down-payment small business working-capital loans ranging from \$20K to \$350k and SBA 504 real estate financing from \$250K to \$40million+. We pair these offerings with options for those who don't qualify for traditional financing

Business Advising & Capacity Building

Providing small-business counseling and national programs that build capacity, knowledge, and pathways to grant capital to increase access to opportunities for small business owners and emerging developers of color.

Holistic Economic & Community Development at Scale Centered Around People & Place

We believe that everybody should have equitable access to capital and opportunities they deserve so they can pursue the dreams they have for themselves and their communities and fully participate in our economy. With our partners we are delivering solutions that contribute to their health and wealth: a vibrant local economy with good jobs; high-quality social services; and a voice in what happens in their community.

Addressing Systemic Issues for Communities & Investors

Exclusionary Practices Creating Economic Inequity

Outdated financial approaches continue to exclude too many people - especially people of color - from equitable access to capital and opportunities, fueling the continued growth of the racial wealth gap.

Lack of Place-Based, Community-Led Solutions

Attempting to implement uniform lending products and programs across communities has not had a deep and lasting impact. Trusted organizations that listen to, value, and implement community-led solutions need to be the norm rather than the exception.

Disconnected Capital Supply & Demand Between Investors and Communities

Institutional investors are currently disconnected from the community organizations and projects that drive real, scalable impact. This has created a key gap in existing capital and the ability for local leaders to access and leverage it effectively.

Deep Community Experience

**80+ years of experience
working with communities
and investors**

\$3 billion in assets
under management

\$23+ billion in financing
and investments

250,000 jobs created or preserved

12,000 small businesses supported
& 5 million people served
